

# COMFORT ENGINEERING

COMPANY PROFILE

# About Us.

## Introduction

Welcome to "**COMFORT ENGINEERING**" it is our GREAT pleasure to have an awaited opportunity to introduce ourselves as one of the leading, professionally managed Air Conditioner Sales & Service Provider Organization.

In "**COMFORT ENGINEERING**" We are Turnkey **HVAC** service providers in air-conditioning Industry. We are currently working in North India. We have been maintaining currently **6000 Tons +** air-conditioning units under our AMC & Warranty and currently executing new projects also. We would like to take this opportunity for a briefing about our organizational setup and capabilities as under for your handy reference and further decision making.

# Mission & Vision.

## MISSION

At Comfort Engineering, our mission is to deliver energy-efficient and sustainable HVAC systems that create healthier environments across Delhi NCR. As a leading HVAC contractor in Delhi NCR, we are committed to reducing energy consumption by integrating proven technologies, eco-friendly designs, and smart automation into every commercial, industrial, and residential project. Our goal is to become a long-term partner for businesses seeking reliable HVAC solutions, ensuring optimal comfort, safety, and sustainability for generations to come through expert installation, maintenance, and energy-efficient climate control systems.

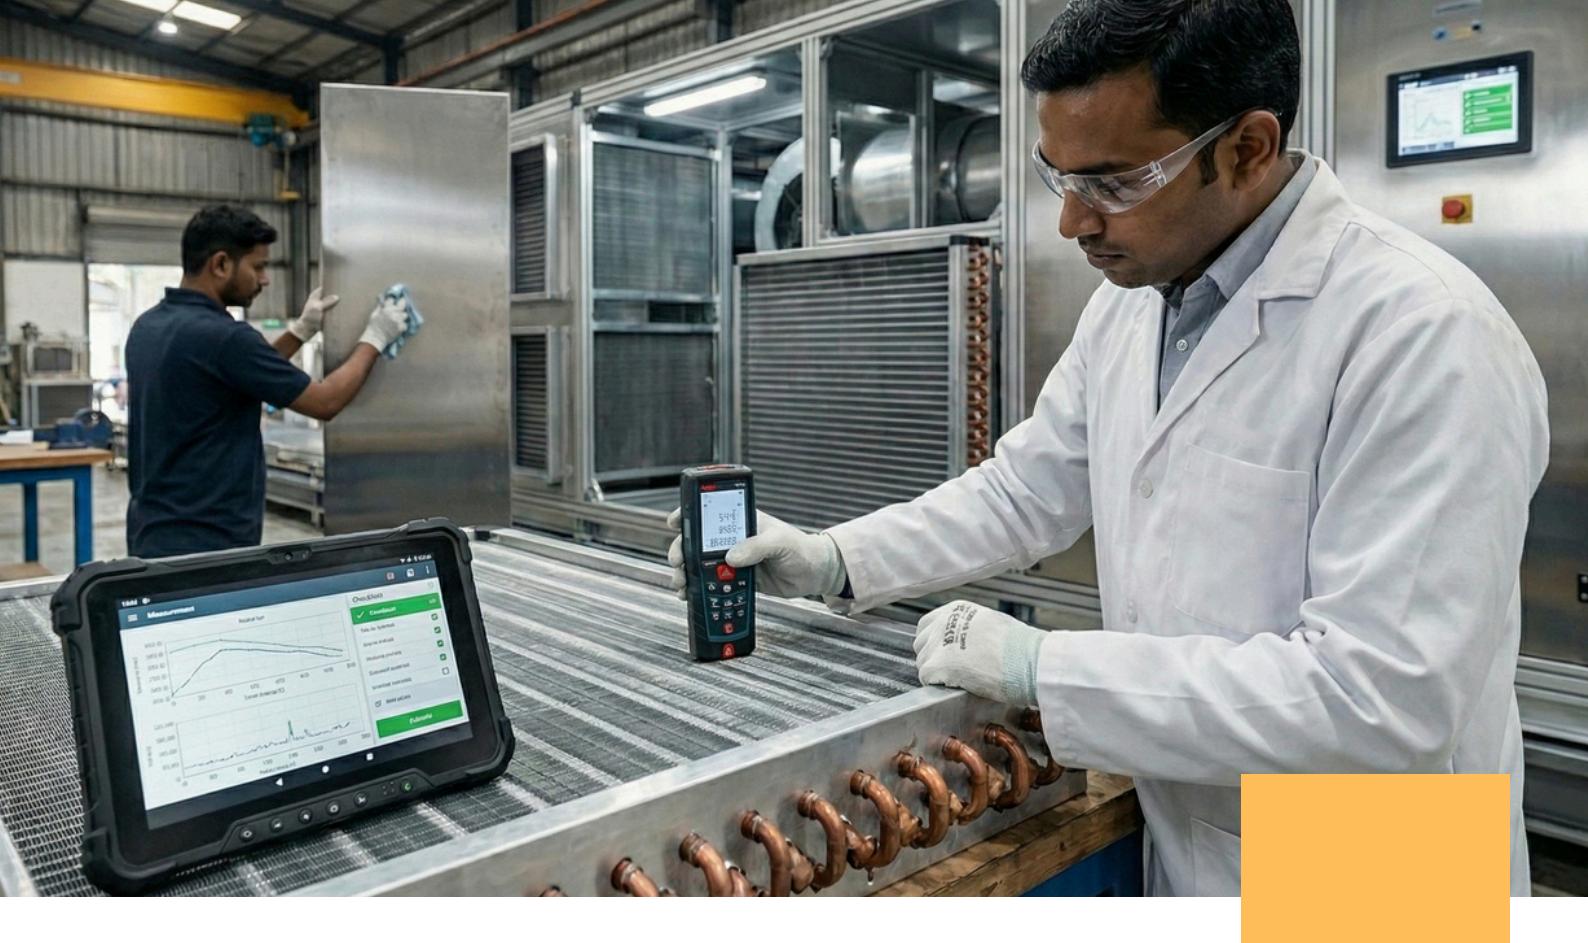

## VISION

To be recognized as the most reliable HVAC solutions provider in India, delivering excellence in every centralized AC system, VRV/VRF installation, and precision cooling project. We aspire to set new benchmarks in quality, sustainability, and energy efficiency across Delhi, Gurugram, Noida, and entire NCR, creating eco-friendly climate solutions for a greener future. Our vision includes expanding our HVAC contracting services across India and beyond, becoming a leader in HVAC technology through continuous service excellence, smart automation, and customer-centric approach in industrial HVAC, commercial AC systems, and IT cooling solutions.

# Our Philosophy.

At the core of our operations lies a simple belief: Comfort shouldn't cost a fortune. We believe that true engineering excellence is measured not just by cooling capacity, but by energy efficiency. We challenge the myth that Centralized Air Conditioning is an expensive luxury. By combining precise engineering calculations with unwavering ethical standards, we deliver systems that are healthy for your family, light on your electricity bills, and heavy on performance. We don't just sell ACs; we engineer sustainable peace of mind.

## Our Quality Commitment

At Comfort Engineering, we are committed to delivering exceptional HVAC solutions that exceed customer expectations through continuous improvement, innovation, and adherence to the highest industry standards. Our quality policy is the foundation of our operations and guides every decision we make, from initial consultation to final installation and ongoing maintenance. As an ISO 9001:2015 certified HVAC contractor, we implement rigorous quality control measures across all our services including commercial AC installation, industrial HVAC systems, VRV/VRF technology, chiller plants, and annual maintenance contracts (AMC). Our team of certified professionals ensures each project meets international standards while delivering energy-efficient, sustainable, and cost-effective cooling solutions tailored to your specific requirements.

# Our Values

## CUSTOMER SERVICE SUPPORT:

We maintain long-term relationships through dedicated service support and prompt resolution of all client queries.

## QUALITY, AFFORDABLE PRICING:

We deliver world-class products at affordable prices, setting new industry benchmarks through state-of-the-art infrastructure.

## TRUST, CONFIDENCE & LOYALTY:

Our brand thrives on the trust and loyalty shown by our clients and team members —our strongest pillars of growth.

## HONESTY & HARD WORK:

We value honesty, integrity, and hard work in every team member, cherishing their contributions to our success.

## TIMELY DELIVERY:

We're committed to quality and timely delivery, consistently exceeding client expectations and building our reputation.

## TEAM EXCELLENCE:

Our dedicated team works round-the-clock with maximum effort, ensuring quality delivery and continuous growth.

***SMART COOLING,  
GREEN FUTURE***

# Sustainability at Our Core

We believe that true engineering excellence must go hand-in-hand with environmental responsibility. We actively support sustainability by adopting '**Green Engineering**' practices—from manufacturing energy-efficient Air Handling Units to executing eco-conscious site installations.

Commitment to **Sustainable Engineering** "We rigorously invest in cutting-edge solutions designed to minimize thermal waste and actively conserve vital resources. Our engineering philosophy integrates energy-efficient technologies and eco-friendly materials at every stage, ensuring that our business growth is inextricably linked to a cleaner, greener environment. By prioritizing sustainable innovation today—from low-carbon manufacturing to high-performance **HVAC systems**—we are not just cooling spaces, but securing a healthier, more resilient planet for the generations to come.

## Health & Safety at Site

At Comfort Engineering, the safety of our workforce is non-negotiable. We strictly adhere to a 'Safety First' culture by equipping our teams with top-tier Health & Safety gadgets. From high-visibility vests and industrial-grade helmets to advanced fall protection systems and respiratory gear, we ensure every technician is fully protected. Our commitment to using certified Personal Protective Equipment (PPE) guarantees a secure environment and a zero-accident workflow at every project site.

# Core Competence - Well Qualified Service Team & Infra

► Call attendance within 4-8 hours

► Qualified & Experienced Team

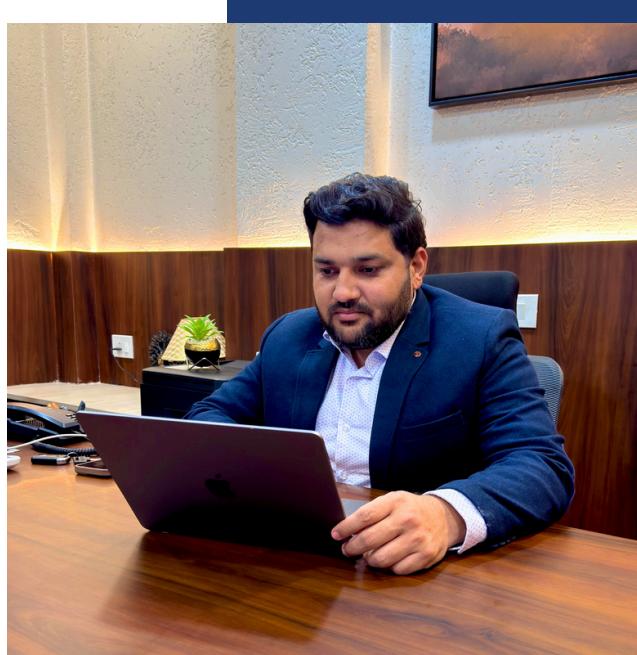

► Original spares in-house

► Latest Tools & Tackles

# The Organization.

## MR. VIKASH KUMAR FOUNDER, COMFORT ENGINEERING

**Mr. Vikash Kumar**, the visionary Founder of **Comfort Engineering**, established the company in 2018 with the mission of transforming the HVAC industry in Delhi NCR and across India. Holding a B.Tech in Mechanical Engineering from Punjab Technical University, he brings over 12 years of expertise in delivering energy-efficient and sustainable cooling solutions.

From its humble beginnings, **Comfort Engineering** has grown into a trusted brand, serving hospitals, IT parks, data centers, corporate offices, hospitality chains, and manufacturing facilities. His leadership has been instrumental in positioning the company as a symbol of innovation, reliability, and excellence.

Guided by a strong belief in green technologies, **Mr. Kumar** drives the company's vision towards reducing carbon footprints through eco-friendly, high-performance HVAC systems. His perseverance, sleepless nights, and commitment to honesty continue to inspire the entire team.

# Our Services

## HVAC CONSULTANCY AND DESIGN

Comfort Engineering is leading HVAC company taking care of HVAC Turnkey Projects. We do HVAC Consultancy & Design as per ASHRAE guidelines to deliver project as a result of our detailed and fine engineering.

## INDUSTRIAL VENTILATION

Ventilation is required to control temperature, replenish oxygen and to remove Carbon Dioxide, Smoke, Heat, Bacteria or dust. Comfort Engineering as best Ventilation Contractor helps in providing ventilation services.

## CENTRALIZED AIR CONDITIONING

Centralized Air conditioning is very known process to be used for changing the behavior of air to make the environment more comfortable. The defined aim of centralized air conditioning machines is to distribute the air at every corner.

## VRV/VRF TECHNOLOGY

VRV/VRF is a modern and sophisticated technology which helps in reducing electricity consumption by regulating refrigerant flow of liquid. Hence, the machine performs efficiently with a pay back period of approximately three and half years.

# DX COMMERCIAL PRODUCTS

- Inverter VRF V Plus Systems
- Multi Split Inverters
- Domestic Water Tank Cooler
- Ducted Air Conditioners
- Packaged Air Conditioners

# AHU Manufacturing Excellence

As specialized **AHU Manufacturers**, we engineer the 'lungs' of your HVAC system with the same precision that defines our philosophy. Our Air Handling Units are not just metal boxes; they are custom-designed solutions built for the diverse Indian climate, featuring double-skin construction for thermal efficiency and advanced filtration for superior Indoor Air Quality. By manufacturing our own units, we maintain total control over quality and cost, ensuring you get a robust, energy-efficient system that minimizes thermal loss and maximizes cooling performance without the heavy price tag.
